Q. How do I find my weekly content – the assets from the Sunday dashboard?

A. Click on the pin for the Sunday you want. Scroll down to view the available items by section. If you would like to see additional assets for that week, click on the tag for the Sunday name in the asset detail for each item. Watch the [Weekly Content video](#) for detailed instructions.

Q. How do I find other liturgical content for this week?

A. If you aren't finding enough art and content for the week you're working on, there are several ways you can find more:

1. You can click into any of the weekly guide assets and click on the tag for either the lectionary code (e.g., "C117") or the Sunday name (e.g., "20th Sunday in Ordinary Time Cycle C") to see all the clips, photos, covers, and content available for that Sunday.
2. You can print out the Lectionary Code Flyer (located in the Resource Calendar section) to use as a reference for the lectionary codes, Sunday names, and their corresponding dates. Then you can simply type the lectionary code for the Sunday you are working on into the search bar to see all the assets available for that Sunday.
